Day 2 - 🚀 How I Went from **Jobless** to **AI Entrepreneur** with **YOLO**

So Subrat, have you ever been at a crossroads in life, not knowing which path to take? I've been there, more times than I'd care to admit.

This was an image of me driving in my Toyota Corolla home after being fired, trying to hold a brave face in the face of adversity.

If only I could go back in time and give myself a hug. 🤗👤

After losing my job, I was in a dire situation. But there was a silver lining, a glimmer of hope, and it came in the form of a four-letter acronym - **YOLO**.

I had already dabbled with YOLO, since **YOLOv3** and v4 but now, it was time to double down. I decided to utilize it to its fullest potential.

🚀 YOLO was the talk of the town back then (and still is today), offering promising results and showing great potential.

So, I took the plunge and started using the latest version of YOLO at the time which was **YOLOv4**.

And that was a game changer, my friend. 💪

Leveraging my knowledge of **YOLOv4**, I started cashing in on contract work, consultations as well as course training thus winning contracts over other freelancers, contractors, and consultants.

Yes, from being jobless, I had become the go-to guy for AI & Computer Vision projects! 🎯

But I didn't stop there. You see, I have this knack for teaching (and a bit of show-off syndrome haha).

So, I'd been creating online courses on **YOLOv4** as I've mentioned earlier.

It was the perfect side gig - I was making money while doing what I loved! 🤖 🧠 💰 🎉

And just like that, I had multiple streams of revenue. Who would've thought, right?

My luck finally turned around and I was able to BUY MY FIRST CAR... BRAND-NEW & CASH!

It felt exhilarating! 🥳

But here's the kicker, Subrat, you can do it too!

With our newly launched [YOLO-NAS course](#), you can skyrocket your AI skills just like I did.

The best part is that you can start learning for as low as [\\$19](#)!

So, want to know what happened next in my journey?

Well, in my next email, I'll tell you [my secrets](#) on how I managed to negotiate with my boss at the time to let me shift from a full-time job, to 3 days work weeks to eventually going flying by myself as [full-time entrepreneur](#)!

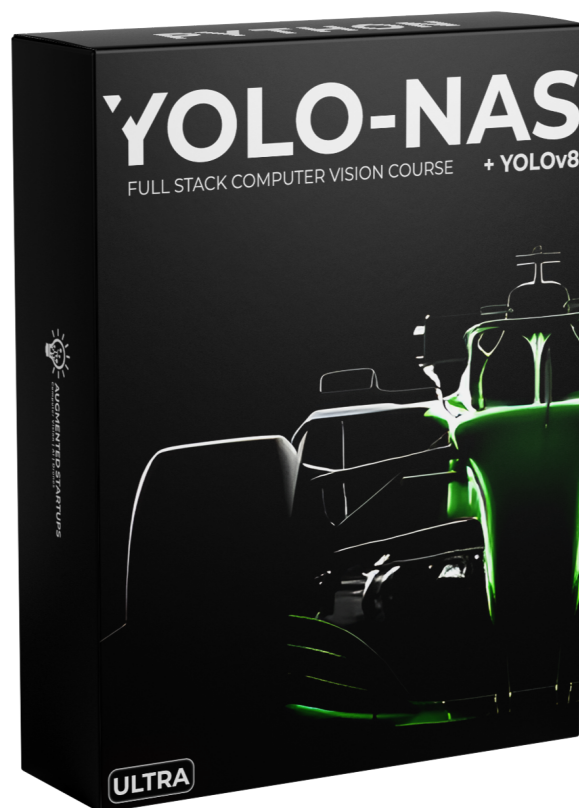

Oh, and I'll also reveal that surprise I promised!

Just a reminder, the 66% OFF discount of the course will be expiring in 4 days time, if you haven't already purchased it, then you can do so by clicking [HERE](#):
